

Federal Communications Commission

Hearing Aid Compatibility Status Report (FCC Form 655)

Reporting Period: January 1, 2011 - December 31, 2011

Filing Confirmation Number: 0005028798

Filing Deadline: January 17, 2012

FRN: 0001699693

Filing Date: 01/12/2012 06:05 PM

General Report Information

Type of Company

Service Provider

De Minimis Exception

Did you offer more than two handsets over any air interface to service providers (if you are a device manufacturer) or to subscribers (if you are a service provider) during this reporting period? Yes

Did you offer any handsets to service providers (if you are a device manufacturer) or to subscribers (if you are a service provider) during this reporting period?

Company Information

Company Name: Cross Valliant Cellular Partnership
Brand Names: Sprocket Wireless
Bigfoot Cellular
PO Box: 9
Street Address: 704 3rd Avenue
City: Warner
State: OK
Zip Code: 74469

Contact Name: John C.Ruhl
Contact Phone: (405) 368-7649
Contact Fax:
Contact Email: jcruhl@crosstel.net

Filing Agent

Is this report being filed by an agent on behalf of a manufacturer or service provider? Yes

Agent Name: Lukas, Nace, Gutierrez & Sachs, LLP
PO Box:
Street Address: 8300 Greensboro Drive, Suite 1200
City: McLean
State: VA
Zip Code: 22102

Contact Name: Pamela L. Gist, Esq.
Contact Phone: (703) 584-8665
Contact Fax: (703) 584-8696
Contact Email: pgist@fcclaw.com

Product Labeling

Do all hearing aid-compatible handsets include labeling? Yes

Explain:

Do all hearing aid-compatible handsets that are capable of voice communication over any air interface or frequency band that does not currently have hearing aid compatibility technical standards have clear and effective disclosure that the handset has not been rated for hearing aid compatibility with respect to such operations? Yes

Explain:

Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? Yes

Website address: <http://www.sprocketwireless.com/devices/hac/>

Explain:

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: Compliant handset models offered by Cross Valliant Cellular Partnership during 2011 were publicly identified for consumers and audiologists. Compliant models were listed on the web site, and retail salespeople were trained to assist with complaint digital wireless phones. Written materials and promotional literature were provided at the point of sale and on the website, addressing the needs of individuals with hearing disabilities. Such consumers were given a 30-day trial period within which to try out digital wireless phones to determine whether they would work properly with their hearing aids.

Methodology for Functionality Levels

From January through November 2011 Cross Valliant Cellular Partnership marketed GSM network services under the brand "Bigfoot Cellular" using the HAC website <http://bigfootcell.com/hacphones.html> and <http://bigfootcell.com/hac.html>. The levels of functionality were:

ADVANCED: \$300 or more; generally offer enhanced features such as higher quality camera, Bluetooth, video capabilities, internet access, high-speed processing, touch or tilt screen, email, and Windows Office Mobile.

AVERAGE: \$150-\$299; generally offers lower-quality camera (compared to advanced models), Bluetooth, internet access, increased memory capabilities, larger phonebook capacity, enhanced color display and increased talk time (over basic models). However, may be older, less stylish phones.

BASIC: Less than \$150; offers the necessary wireless features, may have lower quality camera, Bluetooth or internet capabilities. Typically offers smaller phonebook capacity and average talk time. Most of these models are generally larger in size compared to more advanced models and lack features such as MP3 players, expandable memory and download capabilities.

In December 2011 CVCP marketed CDMA network services under the brand Sprocket Wireless. The levels of functionality were:

PDAs (smartphones) generally have advanced features such as expandable memory, enhanced camera, Bluetooth, video, Internet access, touch screen UI, faster processing, email, full QWERTY keypads, and in many cases Windows Office Mobile, to meet the demands of mobile business professionals and consumers.

High Tier Phones have features for demanding users, including Bluetooth, Internet access capability, increased RAM storage or expandable memory, high-resolution color display, enhanced camera/video capability, and music/MP3 player functionality. They typically feature a modern, sleek design, often are slider form factor.

Mid Tier Phones may have a camera, Bluetooth, or Internet access capability, but are less likely to offer video/music/media player capability. Design is typically less stylish, tends to be clamshell or flip form factor.

Low Tier Phones offer basic wireless telephone features, may not have a camera, Bluetooth, or Internet access

capability, and generally lack such features MP3 players and expandable memory. Typically utilitarian design suitable for customers using voice/text only, tends to be flip or bar form factor.

Report Remarks

Cross Valliant Cellular Partnership does not operate or resell WCDMA voice communications services.

You have reported the following handset model summary information.

Total number of handsets offered: 50

| Air Interface | Fully Hearing Aid Compatible | | Acoustic Coupling Compatible Only | | Non-Compliant Handsets | | Total by Air Interface |
|---------------|------------------------------|---------|-----------------------------------|---------|------------------------|---------|------------------------|
| | Number | Percent | Number | Percent | Number | Percent | |
| GSM | 15 | 44% | 7 | 21% | 12 | 35% | 34 |
| CDMA | 15 | 94% | 1 | 6% | | | 16 |
| WCDMA | 2 | 17% | 3 | 25% | 7 | 58% | 12 |
